Declaration:

- ① SIM cards will be delivered in an activated, but locked state, with deactivated roaming. They can be unlocked in the mdex Management Portal. Further price details about the mdex SIM can be found at [https://www.mdex.de/downloads/mdex-SIM-Preisdetails\(German\)](https://www.mdex.de/downloads/mdex-SIM-Preisdetails(German)). A detailed Terms of Reference for mdex SIMs can be found at www.mdex.de/downloads/LB-SIM (German).
- ② With 'flatrate' data plan, upon reaching the data cap, the transfer rate will be throttled to 64kbit/s. Continued use of data volume will not be billed.
Data rounding : 100 KB
- ③ With 'data package' data plans, the transfer rate will not be throttled upon reaching the booked data plan. Every further started data package will be charged in full, based on the monthly fees.
Data rounding : 10 KB
- ④ With 'run-on rate' data plans, the transfer rate will not be throttled upon reaching the booked data plan. Upon consuming the full data plan, costs will be billed for each additional MB
Data rounding : 1 KB
- ⑤ Monthly prices are payable 12 months in advance.
- ⑥ mdex SIM Allnet connects to the most powerful network operator anywhere in Germany regardless of the reception situation (Telefonica O2, Vodafone, Telekom)
- ⑦ mdex SIM Telefonica connects to the most powerful network operator anywhere in Germany regardless of the reception situation (Telefonica, Telekom)
- ⑧ The data rounding is calculated by rounding off once every PDP context, once per CDR, and / or once to the nearest whole KB every 24 hours, if at least 1 data byte is passed in the day.
Data rounding : 1 KB
- ⑨ The available inclusive data volume of the individual mobile contracts is summarized in the so-called data pooling per pooling tariff. That is the sum of all data tariffs per customer and per tariff. Unused inclusive data volume is not transferred to the follow-up billing month and thus expires at the end of a billing month. If the agreed total inclusive data volume in the pool of the respective pooling tariff is exceeded, the excess data volume is billed for each additional MB (run-on rate).
Example: 10 mdex SIM in pooling rate 3 MB result in a data pool of 30 MB. This total data volume can be freely used on 10 mdex SIM
